

Planning the New York Metropolitan Region

Tom Wright

President & CEO

Regional Plan Association

Since 1922,
Regional Plan
Association has
prepared long-
range plans for the
tri-state
metropolitan region

3 states
31 counties
782 towns
23M residents

Vision

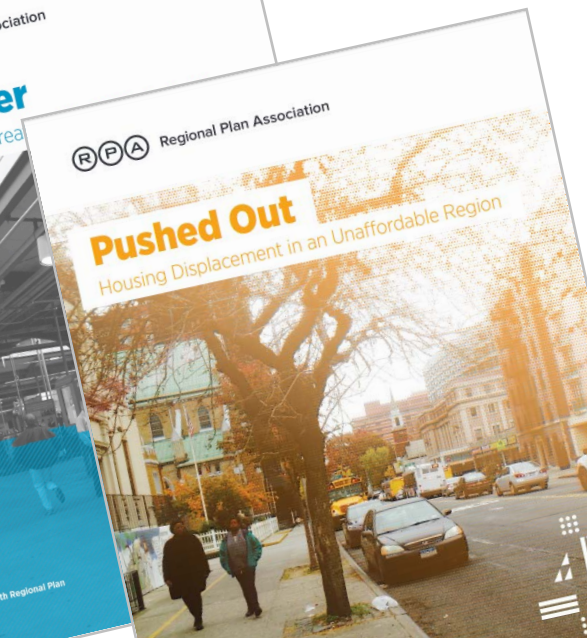

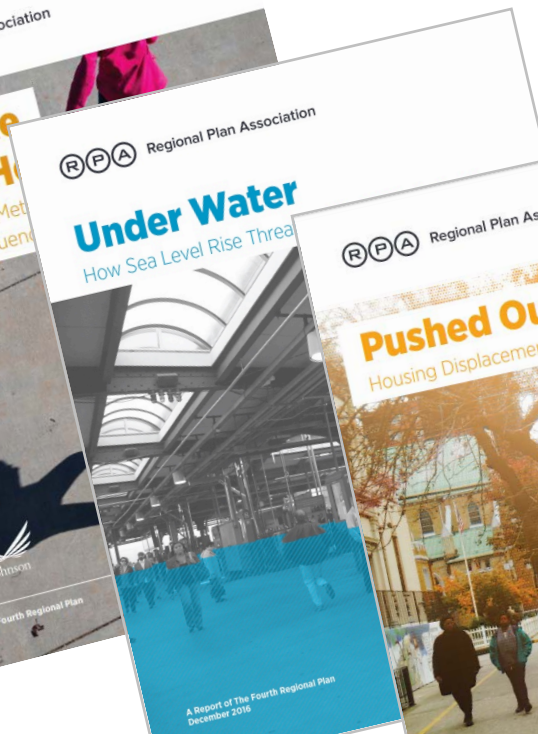

2015 Jobs: 11.6 M
2015 Population: 22.9 M

Diagnosis

Vision

Problem Statements

**Fix the institutions
that are failing us**

**Rise to the challenge
of climate change**

**Create a dynamic, customer-
oriented transportation system**

**Make the region
affordable for everyone**

Fix the institutions that are failing us

- ➔ **Put a price on driving, through congestion pricing, tolling and eventually VMT fees**
- ➔ Reform our regional transportation authorities and reduce the costs of building new transit projects
- ➔ Price GHG emissions using California's comprehensive approach
- ➔ Establish a Regional Coastal Commission and state adaptation funds
- ➔ Increase civic engagement and make planning and development more inclusive, predictable and efficient

Congestion Pricing

- Triboro Bridge and Tunnel Authority in charge
- MOU with NYCDOT
- Implementation no sooner than 1/1/21
- \$15B
- 80% funding to subways and buses, 20% to commuter rail
- Exemptions/credits

Make the region affordable for everyone

- ➔ **Create a million additional new homes in transit-accessible locations**
- ➔ Create well-paying job opportunities throughout the region
- ➔ Turn environmentally burdened neighborhoods into healthy communities

**We can create a
half million new
homes without any
new construction.**

We can create an additional 250,000 new homes by redeveloping under-utilized parking lots near rail stations.

6:25	←	6:25	MTA	1	MTA	241
6:45	←	6:45	MTA	1	MTA	4212
6:47	←	6:47	MTA	1	MTA	440
6:47	←	6:47	MTA	1	MTA	237
6:48	←	6:48	MTA	1	MTA	420
6:48	←	6:48	MTA	1	MTA	413

6:27	←	6:27	MTA	1	MTA	1500
6:32	←	6:32	MTA	1	MTA	440
6:36	←	6:36	MTA	1	MTA	440
6:38	←	6:38	MTA	1	MTA	440
6:42	←	6:42	MTA	1	MTA	237
6:45	←	6:45	MTA	1	MTA	440

And we can overhaul outdated zoning to allow more housing near train stations – yielding new homes in walkable, transit-friendly locations.

Rise to the challenge of climate change

- ➔ **Establish a National Park in the Meadowlands**
- ➔ Protect places where the densities justify it; transition away from lower-density places or places at particularly high risk
- ➔ Create a modern, smarter, greener energy grid

The Meadowlands 2017

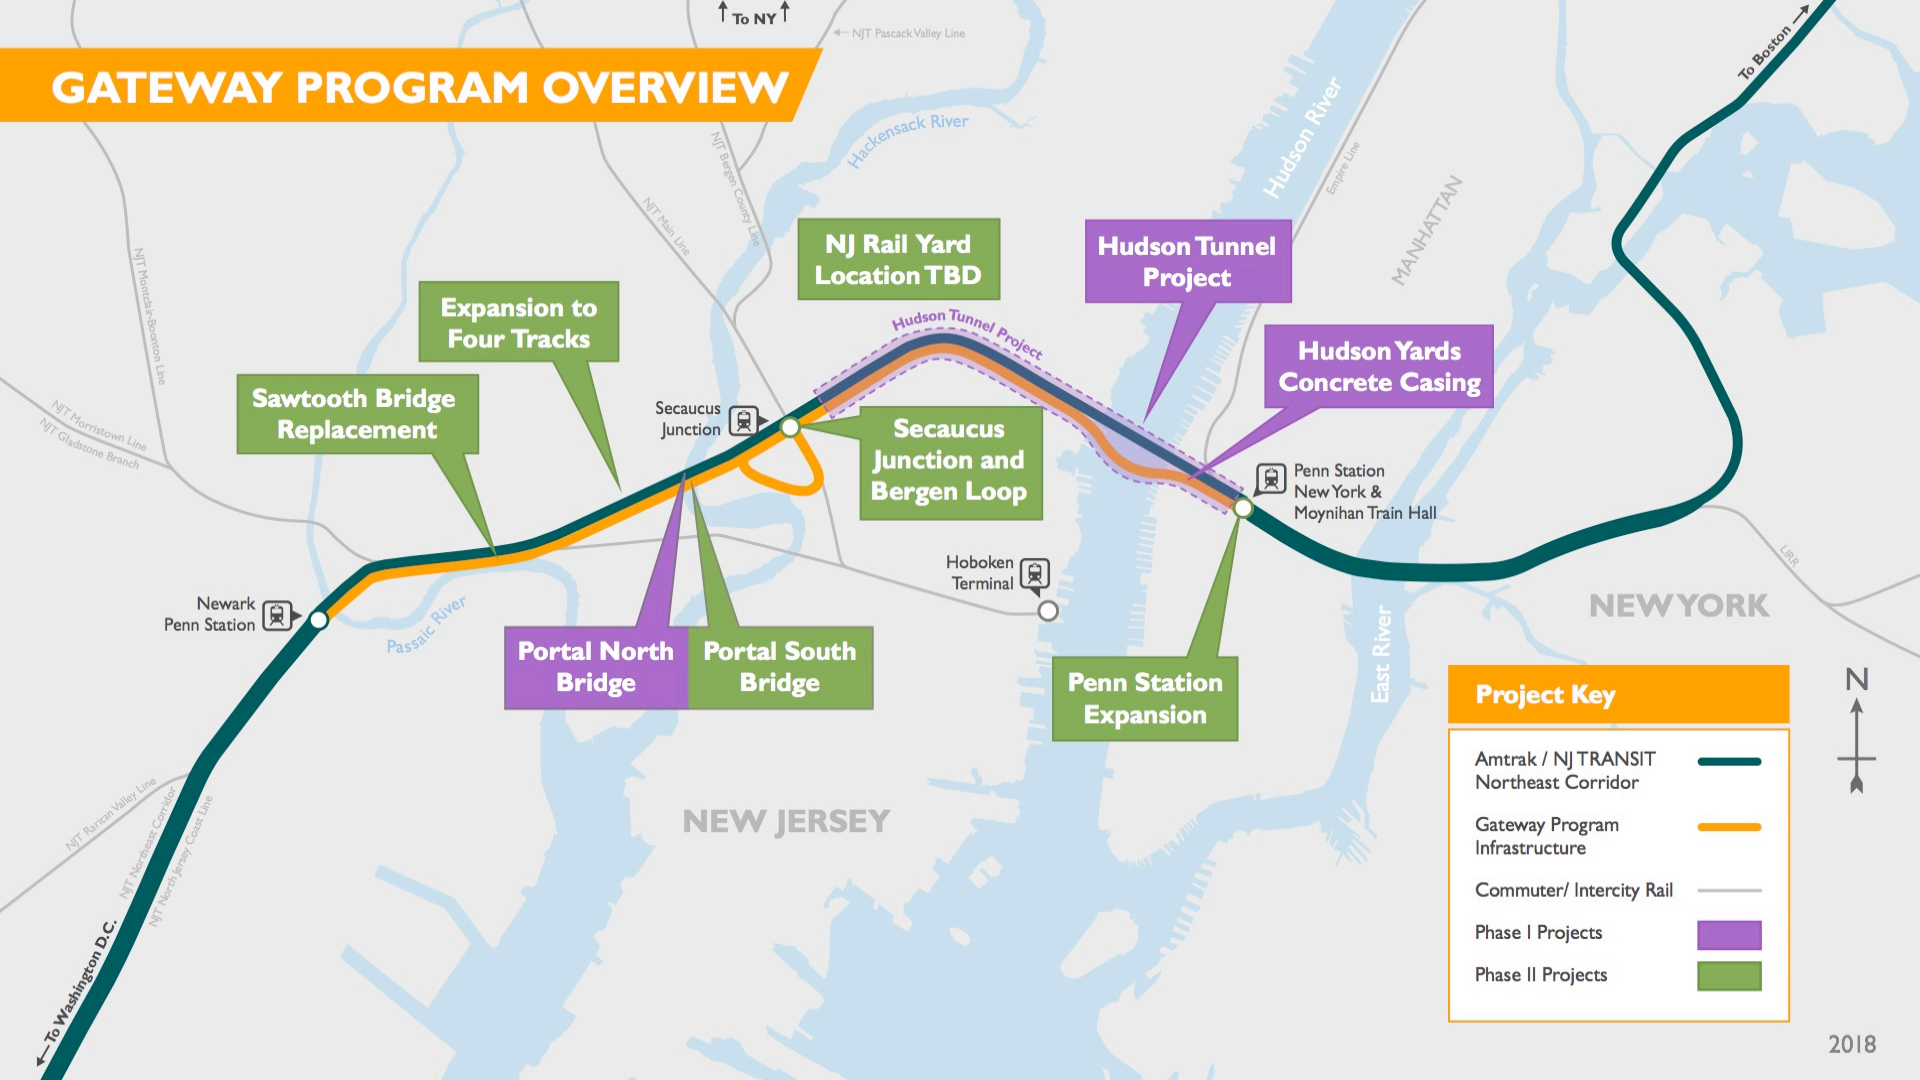

**Transform the Meadowlands
into a National Park.**

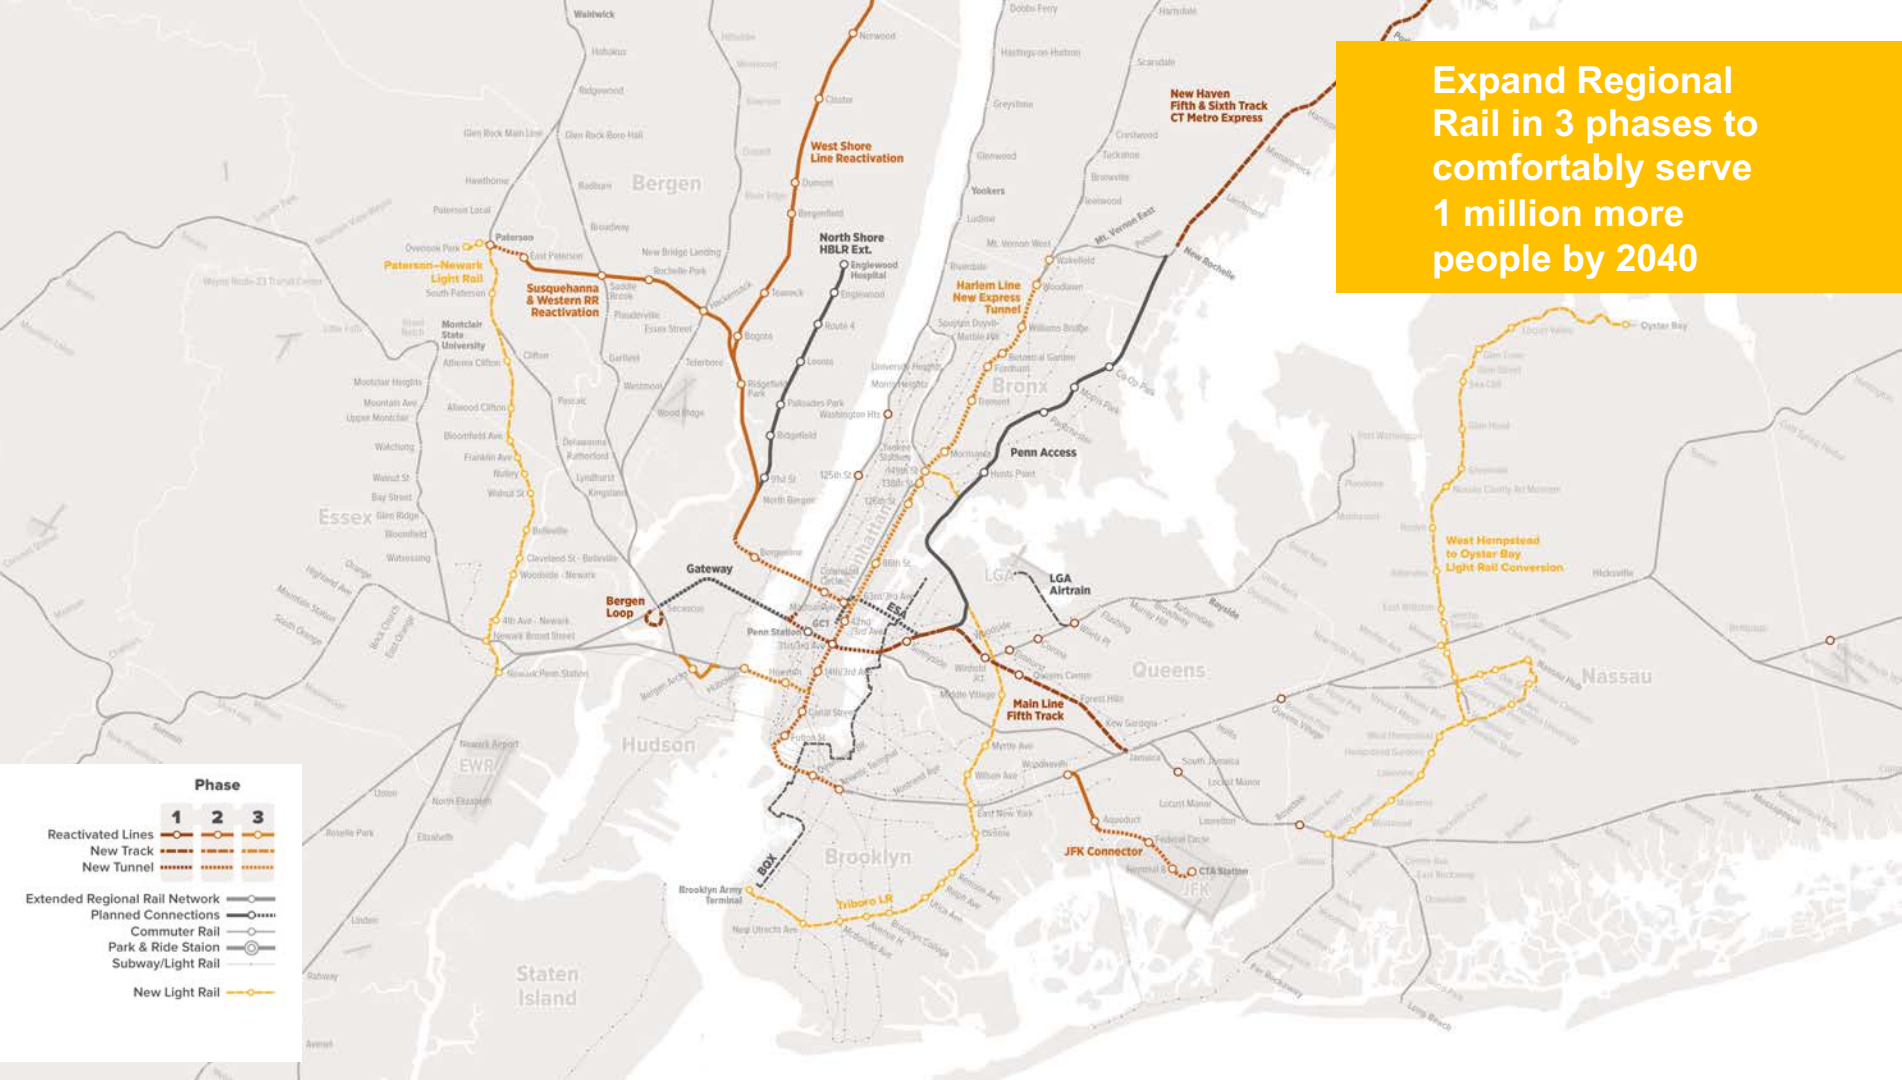

Create a dynamic, customer-oriented transportation system

- ➔ **Expand Trans-Hudson capacity and regional connectivity with a unified, integrated, expanded regional rail**
- ➔ **Totally reconstruct and modernize the subway within 15 years**
- ➔ **Design streets for people & open up more public space in the urban core**
- ➔ **Expand and redesign Kennedy and Newark airports to increase capacity**

GATEWAY PROGRAM OVERVIEW

Expand Regional Rail in 3 phases to comfortably serve 1 million more people by 2040

New York's Next Comeback:

5 Reasons to bet on New York and the Region

1. Urban density is still an advantage
2. Diversity and talent drive success
3. Many of our unique assets can't be replicated
4. New businesses and households will seize opportunities
5. We have a wake up call to address structural problems

What's likely

- Remote work and e-commerce are here to stay
- The region will get hotter and wetter
- Population will become older and more racially diverse
- Fear of contagion will fade after the pandemic
- Inequality between those who can and can't work from home
- Energy and fuel prices will be volatile
- Population is more likely to decentralize than jobs

Biggest wildcards

- Extent and pattern of work-from-home
- Pace and impacts of climate change
- Global and national economic growth
- Immigration
- Labor market dynamics
- Transportation, energy and digital technologies
- Residential and consumer preferences

New Scenarios for Growth and Remote Work

A: Low WFH with High Growth

- 25% of office work is from home
- Jobs grow at **0.5%** per year

B. Low WFH with Low Growth

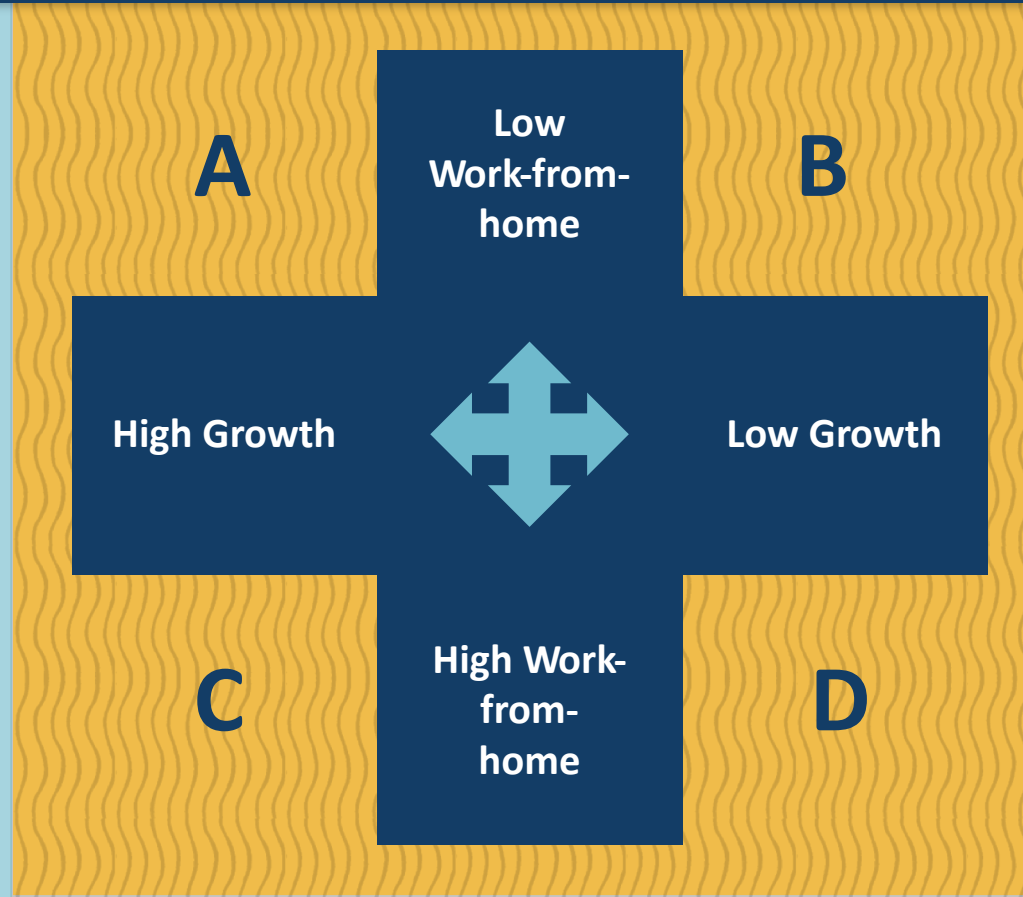

- 25% of office work is from home
- Jobs grow at **0.25%** per year

C. High WFH with High Growth

- 50% of office work is from home
- Jobs grow at **0.5%** per year

D. High WFH with Low Growth

- 50% of office work is from home
- Jobs grow at **0.25%** per year

High and Low Growth Scenarios

Jobs: High and Low Growth Scenarios

Population: High and Low Growth Scenarios

Distribution of jobs and population

A. Low WFH, High Growth

B. Low WFH, Low Growth

Distribution of jobs and population

C. High WFH, High Growth

D. High WFH, Low Growth
