

WELCOME TO THE PARIS REGION, SOURCE OF INSPIRATION

«Paris Region Key Figures» lays out a panorama of the region's business and social life, positioning it among the leading regions in Europe and worldwide. It delivers a summary of the key features in the Paris Region, hoping to contribute to the growth of the Paris Region's economy as it increasingly opens to the world and its opportunities, making the best of ecological transition and innovation.

This publication is produced by the Paris Region Entreprises, the Paris Ile-de-France Regional Chamber of Commerce and Industry and the Paris Region Planning and Development Agency (IAU Île-de-France).

WELCOME TO THE PARIS REGION

THE PARIS REGION, A MAJOR BUSINESS HUB IN EUROPE

Standing at the crossroads of European and worldwide trade, the Paris Region is France's leading economic region and one of Europe's foremost. Consisting of 8 départements and 1,280 municipalities, it hosts a population of 12 million(1) (18% of Metropolitan France's population) that is younger than the national average.

Many advantages:

- its GDP is about 30% of the nation's wealth and 4.5% of the European Union's GDP, ahead of Greater London and Lombardy;
- its deep-rooted industrial tradition can be seen in its dense fabric of SMEs/SMIs and its wide range of activities. It brings together a high density of technology companies (major groups, SMEs, startups), world-class competitiveness clusters and one of Europe's highest concentrations in the science and technology sectors;
- as Europe's leading employment area, it boasts a highly qualified workforce:
 33% of French executives. The Paris Region hosts 22% of France's universities,
 25% of its engineering schools (other than universities) and 20% of its business schools;
- to boost its appeal even more, the region benefits from top-notch infrastructure facilities.

The Paris air hub is continental Europe's leader: most major European cities are less than a 2-hour flight away.

With 70 ports dotted along 500 km of navigable waterways, the region is also the **second-ranking inland waterway platform in Europe.** Ports de Paris is the **world's leading inland port in the tourism sector** with a fleet of more than 110 boats and 7.5 million passengers transported in 2013;

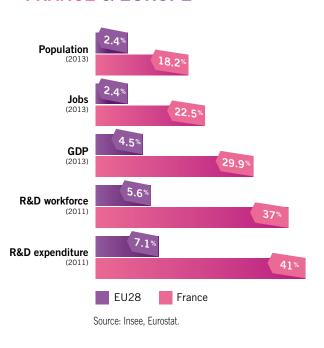

- its broadband communication networks mean that businesses can enjoy technological conditions that will boost their growth;
- lastly, the Paris Region, and in particular inner Paris itself, a city of art, history and culture, remain highly attractive to international tourists. For some years now it has been the world's leading tourist region. Moreover, with 680,000 m² of exhibition space, Paris is ranked number one in Europe in terms of the number of exhibitors welcomed, and number two, behind Milan, for the number of visitors to its international trade shows (over 500 exhibitors).

TERRITORIES NEED BIG IDEAS

exchange

Sustainable City

The Paris Region Planning and Development Agency (IAU Île-de-France) is dedicated to territorial entities, offering analysis, studies and decisionmaking tools.

MORE THAN 160 EXPERTS

Urban planning and land management, environment, transport and mobility, economy, housing, real estate, way of life, health, sports, etc. Hub or

ENABLING THE DEVELOPMENT OF THE CAPITAL'S REGION: PARIS ÎLE-DE-FRANCE REGION

The IAU focuses on the regional planning and economic development of Paris Region: territorial dynamics, sustainability, clusters. We participate in the elaboration of regional master plans: «Île-de-France 2030», urban development, housing, economic development...

CONCEIVING TERRITORIAL DYNAMICS

Through innovative ideas, the IAU helps local authorities and companies to take the right decisions. Our Agency has already advised numerous clients located all around the world: Africa, Latin America, Middle-East, Asia. We also carry out benchmarks on global regions and cities.

INFORMING DECISION-MAKERS **AND CITIZENS**

The IAU develops digital and interactive tools on Île-de-France. We also actively contribute to the development of **open-data**. For example: Paris Region Map: the economic map of Île-de-France; Wikimap' project: a collaborative map of all spatial planning projects; Land Use mode (Mos).
