

CULTURAL, TOURISTIC AND LEISURE SITES IN PARIS REGION

01.01.2019

About this map

The hierarchy of the sites is elaborated from the attendance data, when available. In case of unavailability of the data, information on the labeling, the reputation or the activity of the site are considered to estimate the area of the circles.

This geolocation of the tourist, cultural and leisure offer proposed by the Institut Paris Region is perfect but allows to answer a recurrent need : to have a synthetic regional vision of the tourist offer in Paris region.
